RATIONALE: We are seeking additional outcross stock for our Burmilla breeding programs to increase genetic diversity, health and vigor in our current genepool. Colors and patterns of Burmillas that are possible from the mating of Burmilla to the allowable outcrosses are registered as Burmillas in other associations around the world.

They provide additional diversity to the Burmilla gene pool and bring the needed health and vigor to sustain the breed. The Burmilla Breed Council recommends that we register these

cats. In addition, there is no longer a need to exclude those outcross cats with CPC in the background as DNA testing is available to exclude those cats that actually carry the color point pattern.

SHADED SILVER: ...

CHINCHILLA GOLDEN: Coat Color: Tipping about 1/8 of the entire hair length. The tipping is to be evenly distributed to give the characteristic sparkling appearance. Face and legs are shaded, but chin, ear furnishings, belly, chest and underside of tail range from a warm ivory to golden honey. Tabby markings may be visible on the face and forehead. Face and legs may be slightly shaded with very light tipping. In general, a Chinchilla cat appears to be much lighter than a Shaded. Descriptions are valid for all Chinchilla colors.

SHADED GOLDEN: Coat Color: Tipping about 1/3 of the complete hair length. The shading is to be evenly distributed to give the characteristic sparkling appearance. Face and legs are shaded with the tipping but chin, ear furnishings, belly, chest and underside of tail range from ivory beige to deep rich honey. Tabby markings are visible on the face and forehead. Broken rings on the legs are permitted. The fur on the underside of the feet is colored with the color of the tipping, on the back of the hind feet the color extends up as far as to the joint. In general, a Shaded cat appears to be much darker than a Chinchilla. Descriptions are valid for all Shaded colors.
