Balinese allowable outcross breeds: Balinese, Javanese*, Colorpoint Shorthair, Siamese, or Oriental Longhair**.

*Javanese became a division of the Balinese breed effective May 1, 2008.

**Certain limited outcrossing is permissible to the Oriental Longhair on litters born on or prior to 12/31/2025. Contact the CFA Central Office for details.

RATIONALE: This housekeeping proposal corrects and clarifies the standard for all Balinese and Javanese colors modified by silver. Breedings permitted under the outcrossing program (to pointed Oriental Longhairs) have resulted in an increase in the silver and smoke colors as well as the cinnamon-based colors. The existing wording in the standard was adopted prior to the addition of the pointed Oriental color class in 2010, and judges have noted the lack of descriptions for a Silver Lynx Point and a Smoke Point, and a complete color list. Also noted was the global “smoke & silver,” which leads to genetically impossible Smoke Lynx Points and Parti-Color Silver Points (that is, a cat cannot be simultaneously a smoke (non-tabby silver) and a lynx (tabby) point, and vice versa). The proposed changes resolve all of these issues.
