

Hurdles

There are 4 hurdles that are 4", 6", 10" and 14", each 2 ft wide

Hurdle Specifications		
Hurdle	Bar Number	Inches from the Ground top bar
4"	1	4"
6"	2	6"
10"	3	10"
14"	4	14"

It is suggested that the hurdles have a marker such as colored duct tape on the center of each bar of the hurdles.

Hoops

There are 2 hoops.

The hoop needs to be 1'6" in diameter.

The hoop needs to be 6" from the floor to the bottom of the hoop.

The hoop needs to be 2 ft from the floor to the top of the hoop.

Weave Poles

4 poles of any height.

The poles need to be 1 to 1 ½ ft apart.

Tunnels

The tunnels should have approximately a 18" diameter and 72" long. The tunnel should be solid not see through. Tunnels can be purchased from Amazon or Walmart.

Agility Ring Course and Obstacle Specifications

Stairs

All steps are measured from the floor.
The steps need to be 2 feet wide

The first step needs to be 10" from the floor
The second step need to be 19" from the floor
The third step need to be 28" from the floor
The third step needs to be 22" across the top

PVC piping is typically used to make the hurdles, hoops and weave poles. Since the they will need to be stored and transported.

For the hurdles and the hoops it is suggested that the uprights be removable from the bases.

For the weave poles, it is suggested that the poles be separate pieces from the piping that separates the poles.

For the steps, a lightweight material that will be capable of standing up to the cats weight and force of the cat running up the steps at full speed.

Agility Ring Course and Obstacle Specifications

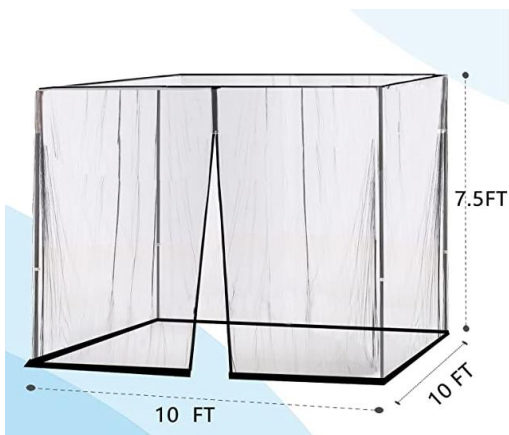

Enclosure

Enclosures should be 20 ft. by 20 ft. minimum to 36 ft. by 24 ft. maximum

4 10x 10 pop-up tents with mosquito netting can be used.

Straight Leg Pop Up Tent (4 would be needed)

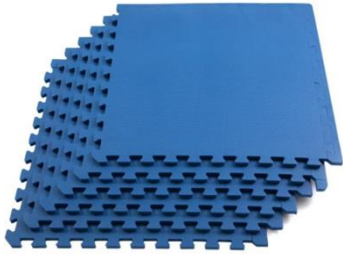

10 x 10 Mosquito Netting

Other cage setups are constructed by making frames that easily set up and break down. There are some made of metal and others of PVC.
