BREED NOTES

BREED: JAPANESE BOBTAIL

Imports from Japan may be registered with unknown or unregistered parents. Two photos of the cat should be submitted and kept with the application. The OK of the Breed Council Secretary is required. Proof of import, including travel documents, is required for cats residing outside of Japan.

Vans are registered as bi-colors, not as "other" colors. The word "van" should be added to the cat's record after the registration number has been assigned.

All BCS codes for red tabby and white were dropped 2/98.

2/04 - Imported Bobtails from the Kuril Islands were accepted for registration as Japanese Bobtails instead of recognizing them as a separate breed.
