

# Paula Noble for Region 3 Director

I joined CFA in 2000 with the cattery name of AngelBear. I bred Tonkinese and Japanese Bobtail (SH) and am a member of both Breed Councils. I currently exhibit Burmillas, Japanese Bobtails, Tonkinese and HHPs. I am a member and officer of several Regional clubs, which gives me a good idea of various struggles and successes within Region 3. I have served many of the region's clubs as a Ring Clerk, Master Clerk, and most recently as a Master Clerk Instructor. I have served as Show Manager for many shows in the last eight years. In addition, I have served the Region as Regional Secretary 2014-2018 and 2020- present. I worked with our current regional director to acquire and store show producing items such as cages, judging tables, sound system, etc., so that the Region now has the means of lending any of these items to regional clubs for their use.

In my professional career, I managed a private cardiology practice for 15 years. I transitioned to the University Medical Center where I managed the billing department for cardiology (both adult and pediatric), gastroenterology and oncology for an additional 15 years. I am now retired but still offer occasional consults to the department I once managed. The skills I learned in my professional life will serve me well as your next regional director.

My sole purpose in wanting to serve our Region as its next director is to do what is best for the region and all its members! I cannot do that alone. I will need help and input from everyone in the region! I will expect you to come to me without hesitation when you have a question, idea, concern, and/or possible solution to an issue. We can only be a strong, cohesive region when all regional members work as a team.
