

HOPE for CFA Treasurer

TREAT CFA AS A BUSINESS

Our hobby needs to be protected with good business decisions and solid fiscal responsibility. We have gaps with communication and with strategic spending. I want to address those issues and move us to the future in a fiscally responsible manner. I will analyze issues and discuss financial endeavors to make prudent, value added decisions!

I will make decisions based on facts.

FOCUS ON THE ORGANIZATION

I believe that we should only spend when it will benefit the association as a whole—not to benefit an individual or, group.

VOTE FOR FISCAL EXPERIENCE AND SUCCESS

As a co-owner of Preferred Fire Protection, I have helped build a business from the ground up, and now generates multi-million dollars in annual revenue.

I am a graduate from Bradford Business School. In 1992 we started our fire protection business and grew it from the ground up to its current success. This requires constant and consistent focus of our financials including the preparation and presentation of financial reports as well as strong organizational skills and a clear understanding of the criticality of creating and management of budgets.

You can trust me with handling CFA's treasury as I would my own business and my own home

LET'S WORK TOGETHER TO
BRING **HOPE** TO CFAS FUTURE!

HOPE GONANO FOR CFA TREASURER
