REFINEMENT	5 POINTS
COLOR	20
POINTS	
EYE COLOR	10 POINTS

HEAD

- Round and massive
- Great breadth of skull
- Skull smooth and round
- Round face, eyes, and ear tips
- Round underlying bone structure
- Forehead, nose, and chin in straight line
- Muzzle not overly pronounced
- Set on a short thick neck

HEAD CONTINUED

- Symmetrical, and equal
- Break centered between the eyes
- Full, round cheeks
- Broad, powerful jaw
- Chin full, and well developed reflecting a proper bite
- Ears set far apart and low on head

BODY

- Broad & deep through the chest
- Equally massive across the shoulders and rump
- Well rounded midsection and level back
- Good muscle tone
- No evidence of obesity
- Large to medium in size
- Quality the determining consideration rather than size

COAT

- Dense and plush
- Soft and full of life
- Standing out from the body due to a rich thick undercoat
- Medium in length
- Acceptable length depends on proper undercoat

PATTERN

Classic, Mackerel, and Spotted tabbies (with or without white) are accepted patterns in the Exotic.

COLOR

BLUE TABBY & WHITE

BLACK

CALICO

Exotics come in a multitude of accepted color varieties. Black, blue, red, calico, tortie, silver, chocolate, and pointed, to name a few.

EXOTIC DISQUALIFICATIONS

- Locket or button
- Kinked or abnormal tail
- Any apparent weakness in the hind quarters
- Any apparent deformity of the spine
- Deformity of the skull resulting in an asymmetrical face and/or head
- Crossed eyes
- Check under colors for other DQ's
- White toes and eye color other than blue in pointed cats

Tail fault
