

# RUSSELL WEBB FOR CFA PRESIDENT

STRENGTHENING GOVERNANCE, GROWTH, AND GLOBAL LEADERSHIP

As president, I propose on strengthening several blocks of CFA's foundation

## TRANSPARENCY

**Commit CFA to open, accountable governance that serves our clubs, exhibitors, and global community**

- Limit closed sessions to CFA commercially sensitive matters, as advised by legal counsel
- Issues with potential legal consequences, as advised by legal counsel
- Hold all protests in open session, unless the accused requests otherwise
- Publish the voting record of all board members in the official minutes, ensuring full accountability to their club constituents.

## COMMITTEE APPOINTMENTS

**Build strong committees through expertise, integrity, and value to CFA**

- Appoint committee chairs based on knowledge, experience, and the ability to contribute meaningfully to CFA's mission
- Have committee chairs nominate their committees' members for approval by the president and vice-president

## FINANCIAL STRATEGY

**Ensuring long term financial stability and responsible stewardship**

- Include detailed income and expense strategies when developing budgets to support sustainable growth and operational efficiency

## INTERNATIONAL DIVISION

**The ID is an essential part of CFA and a vital pillar to our global future growth**

- Place greater focus on the needs of the International Division, allowing CFA to remain a global presence
- Remove or revise rules that have hindered expansion, reduced entry numbers, or limited CFA's ability to compete with rapidly growing international organizations

## CLUBS

**CFA clubs produce much of the public-facing public-ity for CFA as well as support many of CFA's efforts. I feel that we need to:**

- Develop strategies ensuring the financial viability of all CFA clubs.
- Determine how to reinstate club subsidies
- Promote more successful shows, leading to increased registrations and greater engagement.

## HOUSEHOLD PETS

**Non-pedigreed cats are one of the largest, untapped opportunities in the cat fancy**

- Develop a comprehensive strategy expanding registration and exhibition opportunities for Household Pets.
- This category represents enormous potential — with an estimated 30 million Household Pets in India alone, the growth opportunity across Asia is unprecedented.

I respectfully ask for your club's vote for me as CFA President.
